Read what others say about Bea on the back!

Bea Haskins has been writing as long as anyone can remember. She's also been organizing her world and the world around her since she was a child. As an adult, she writes and organizes for a living!

## What Others Say about Bea Haskins

Carlton L. Purvis, III, President  
Wellspring Executive Advisors  
Lynchburg, VA

I have worked closely with Bea Haskins for four years while serving as Board President, Board Vice President and most recently as Interim Executive Director of the National Healthy Start Association. Bea has extraordinary ability to master and remember details while understanding how they fit within broader strategic goals. She routinely translated her in-depth knowledge about the Healthy Start initiative, grantees and the Association into successful program and organizational outcomes.

Bea's work ethic is exceptional. A project assigned to Bea will be done efficiently, accurately and on schedule. In addition, she anticipates and solves problems and consistently pushed the NHSA to achieve higher standards. Bea has a reputation and record of excellence, and always exceeds expectations. Given the opportunity, I would definitely work with Bea again, and I highly recommend her.

Jerry Roberson, President  
Texas Healthy Start Alliance  
Arlington, TX

The Texas Healthy Start Alliance (TXHSA) is a non-profit corporation serving the Healthy Start projects and their communities throughout the state of Texas. The membership consists of the six federally funded Healthy Start projects in the state of Texas – Brownsville, Dallas, Fort Worth, Houston, Laredo and San Antonio. TXHSA works to address the needs of Texas' most vulnerable. This note is a testimonial of expert consulting services provided by Bea Haskins to the TXHSA.

I have worked with Bea Haskins for several years in a number of different capacities. Ms. Haskins consulted with TXHSA in the spring of 2009 to complete its first national competitive grant application. She was retained as an expert grant writer. Her concrete approaches toward planning, preparation and the actual submission of the grant application were simply superb. Her initial timeline functioned as the backdrop for the entire project. The preparation process involved multiple contributors with multiple ideas and perspectives. She managed to capture the essence of all of the parties involved into a clear and concise document. Finally, her sound direction for grant submission made the entire venture a success.

Bea Haskins has a proven track record of seasoned writing and coordination skills, great customer service and overall reliability. Whatever she commits to, she delivers. Having her on the team makes the team instantly better. I highly recommend her to anyone seeking professional consultative services.

Joseph T. Jones, Jr., President & CEO  
Center for Urban Families  
Baltimore, MD

I have worked with Bea Haskins for over 17 years. She quickly grasps a situation, dives in and invests herself in the project. She then provides high-quality results. Recently, she has coordinated the collection of critical information dispensed at technical assistance and training seminars for the federally funded Responsible Fatherhood grantees and managed and disseminated that information in formats useful to our entire team. Bea's attention to detail and organizational skills are legendary, as is her ability to manage complex tasks and projects.

Kim Anton  
Anton Graphics, Inc.  
Clearwater, FL

Bea Haskins is a pleasure to work for. I do graphics for her clients and she always makes sure I have what I need to get the job done. She is organized, responds quickly, pays on time and is one of my favorite clients to work with.
